PARKS DIVISION
DEPARTMENT OF ENVIRONMENT AND LANDS

FOREWORD

This report includes a description of the system of Provincial Parks and a statistical summary of the recorded use of selected parks for the 1990 summer operating season. Statistics are based on the actual number of days the parks were open and the statistics which were collected in staffed parks which offer camping facilities.

The camping season varies throughout the park system. The first nine parks opened May 16: La Manche, Butter Pot, Gushue's Pond, Bellevue Beach, Backside Pond, Square Pond, Notre Dame, Beothuck and Catamaran. Another seven opened on May 18: Fitzgerald's Pond, Northern Bay Sands, J.T. Cheeseman, Cochrane Pond, Jack's Pond, Barachois Pond and Frenchman's Cove. On June 1 six more opened: Squires Memorial, Crabbe's River, Sandbanks, Duley Lake, Grand Codroy and Jipujijkuei Kuespem. One park, Pinware River, opened on June 15. All remaining parks opened June 22. These parks remained open until September 4, when all but fourteen (14) parks closed for the season. With the exception of fees for winter camping at Gushue's Pond and Square Pond no fees were collected beyond the September 4 weekend.

Provincial park visitor use increased in 1990 by 10%. In 1990 the method of calculating camper nights changed as the actual number of campers in the party was used to calculate this statistic. Prior to 1990, an average of 4 campers per party was used.

For further information please contact the Statistical Officer, Parks Division at P.O. Box 8700, St. John's, NF. A1B 4J6.

GLOSSARY OF TERMS

CAMPER NIGHTS: Is one person staying in a provincial park for one night. Example: A camping unit, containing four people, staying in a provincial park for one night would equal four camper nights.

CAMPER NIGHTS BY ORIGIN: Figures used to show residency of campers as a percentage of total campers registered.

CAMPSITE OCCUPANCY: The percentage of time during the camping season when the regular designated campsites are occupied.

DAILY VEHICLE ENTRY PERMIT: Entitles a vehicle to enter any Provincial Park and its occupants use of the day-use facilities during the day of issue.

NUMBER IN PARTY: The number of registered persons occupying a campsite.

SEASONAL VEHICLE ENTRY PERMIT: Entitles a vehicle to enter any Provincial Park and its occupants use of the day use facilities for the entire camping season during the year of issue.

SENIOR CITIZENS: A resident of Newfoundland and Labrador, at least 65 years of age and who holds appropriate identification.

TOTAL UNITS REGISTERED: The actual number of camping units (tents, trailers, etc.) registered in a park for the entire season.

TOTAL VISITORS: The total number of visitors vehicles entering a Provincial Park multiplied by four, plus the number of persons on buses and the number of pedestrians. Counts are obtained visually. The same vehicle could be counted a number of times each day since the vehicle is counted whenever it passes the registration office upon entering the park.

SYSTEM OF PROVINCIAL PARKS

There are a total of 94 parks and reserves in the Province which provide the public with a variety of opportunities for outdoor recreation and enjoyment. The Division has six classes of parks including:

NATURAL ENVIRONMENT PARKS

Parks set aside with representative natural features and landscapes that combine with outstanding recreational resources to provide high quality intensive and dispersed outdoor recreational opportunities. These parks also offer the opportunity to educate the park user through heritage awareness programs. There are a total of 34 natural environment parks through the Province.

OUTDOOR RECREATION PARKS

Parks with natural attractions and special scenic qualities that can be extensively developed to accommodate a variety of recreational activities of a moderately intensive to intensive nature. Emphasis is on camping, day-use, and water-oriented facilities. There are a total of 20 outdoor recreation parks throughout the Province.

NATURAL AND SCENIC ATTRACTION PARKS

Parks with significant natural features and/or special scenic attributes. There are a total of 20 natural and scenic attraction parks throughout the Province.

WILDERNESS AND ECOLOGICAL RESERVES

Reserves are established to preserve and protect, in an undisturbed state, representative and unique natural features of provincial significance. There are a total of 10 designated and 5 provisional wilderness and ecological reserves throughout the Province.

WATERWAY PARKS

Parks established to preserve significant rivers or sections of such rivers including headwater, tributary, and/or intermediate linking lakes, together with adjacent land for recreational purposes and/or protection. To date, no waterway parks have been designated, however, many rivers in Newfoundland and Labrador may qualify for designation.

PARK RESERVES

Land identified to reserve and protect areas with significant natural features and landscapes and/or outstanding recreational opportunities for future use as park areas. At present there are five such areas.

Notes:

1. Refers to Natural Environment, Outdoor Recreation and Natural and Scenic Attraction Parks.

2. These figures include only those parks listed in the various tables of this report.

3. In 1990, the method of calculating camper nights changed as the actual number of campers in the party was used to calculate this statistic. Prior to 1990, an average of four campers per party was used.

Note 1: Camper nights cannot be compared with 1989 data because as of 1990, the actual number of Camper Nights are calculated based on the actual number of persons registered rather than through the use of a formula (Number of units registered multiplied by four) used in 1989 and previous years.

Note 2: Regular includes all residents under 65 and all non-residents.
